OSA ⊟ 6279-6

4 October 1963

Dear Joe:

Subject: Contract EG-400 - Tasks 1, 4, 5 and 7
Final Invention Report

Bill E. has completed his audit on Tasks 1, 4, 5 and 7 of Contract EG-400 and we are anticipating closing out these tasks.

This constitutes the final Invention Report for the subject tasks as called for under Clause No. 20 "Patent Rights" of Contract EG-400.

Interim report dated 11 April 1962 listed three Invention Reports as follows.

1. K-11601 Docket 23,162 - [redacted] 25X1
and [redacted], "Castered Transport Roller". 25X1

2. K-11614 Docket 23,729 - [redacted] 25X1
"Rear Projection Screen".

3. K-11613 Docket 23,762 - [redacted] 25X1
and [redacted] "Low Distortion High-Resolution Printer". 25X1

Interim report dated 20 February 1963 stated that other than the three above listed inventions no others had been conceived or reduced to practice under the subject contract.

Since the report dated 20 February 1963 no inventions have been conceived or reduced to practice under the subject contract which constitutes the final report for Tasks 1, 4, 5 and 7 of Contract EG-400.

RRW
